

We help you experience English

house of knowledge

What Makes English Language Important for us

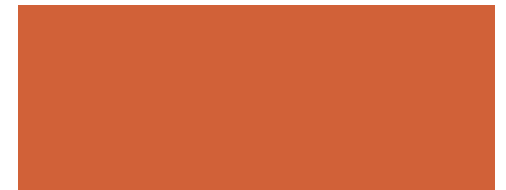

- English language colors many aspects of life. Even, it is going to take more complicated to learn than some other kinds of languages, the vibe as the world language enthrall us to promote this language more widely. Besides its vibes, of which people use and apply some of world's best, the teaching, the skills, and techniques, the methods, the strategies as well as the approaches are surely determined by a carefully-guarded special ingredients which is called curriculum in the material production process and which varies from source to source.
- We tailor our curriculum from zero experience to professional ones so that every single person can have a personal experience in understanding this language.
- With so many variables involved, no wonder that our English language student shall experience by their own.

About Us

- We delivered the name of our course 'house of knowledge', it is much more to answer our dream to host a "home" for anyone to experience the language of English. In 2022, we set this course bringing the simple concept of studying English. Aside from that such philosophical idea, the fortune brought us to start in a medium-"kampoong"-neighborhood in which we have been accompanying our students and clients to get into English.

Programs We Teach

1. **Zero class** is made from year one at elementary. It is a 40-minute class.
2. With longer time in each meeting, from year five at elementary, we introduce **Pre Regular**.
3. Then we have **Regular One** until Seven
4. To meet the demand of TOEFL, IELTS, TOEIC, and many English Testing's, we make **Special Class**.
5. **Short Course Class** so far, is the last program we make. It is to help students who have limited time experience and finally make good achievement. Most are due to placement test that enable them to join

Learning English Program – 7 steps

Story of Our Services

In the first service period (2015) of Mr. President Joko Widodo, we used to be the learning companion of Mr H Joko Widodo - The President of The Republic of Indonesia.

Being the assistant in learning the English, the English learning with Mr. President was also along with Mrs. Iriana -The First Lady of The Republic of Indonesia.

In 2017, we happily were invited by Mr. FX Hadi Rudyatmo to assist him in learning English.

From 2012, the CSR program which was mainly from Mr. Gibran Rakabuming Raka became our activities in promoting English. It reached out not only Solo but also 6 cities around Solo with 31 spots in which the goal is to promote the elementary students until junior high school experience the English. At the end, Covid ended the program.

As time went by, there were three companies joining the CSR Program, they were Srabi Notosuman, PT Plevia, and PT PP Mats Indonesia.

Translating documents from many varied figures or companies was also one of our stories.

Bussiness With Us

We prefer to call as the God's order. Teaching from one student to many other students has been being our habit more than we consider as how much we earn to live. By doing teaching, we believe that we can see reward smile from many students showing that English is not as difficult as they think. Once they know how to play, they grow the experience. That is why **FRANCHISING house of knowledge** is the answer.
